

PLASTIC DOES NOT DISAPPEAR

**1
YEAR**

After 1 year,
it is **still** here.

**10
YEARS**

After 10 years,
it breaks into
small pieces.

**100
YEARS**

After 100 years,
tiny pieces remain
for a **very long time**.

**STILL
IN THE
ENVIRONMENT**

It is still here
in our **land**
and **water**.

**USE LESS PLASTIC.
REUSE WHAT YOU CAN.**
