

WHAT IS INDISCRIMINATE DUMPING OF REFUSE?

Indiscriminate dumping of refuse means throwing waste (rubbish) **anywhere** we like instead of using a bin or the right place.

EXAMPLES

Throwing rubbish on the street

Putting waste in drains and gutters

Dumping rubbish on open land

Throwing waste into rivers or lakes

Burning rubbish anywhere

WHY IS IT BAD?

It makes us sick.
It can cause diseases.

It blocks drains and causes flooding.

Animals can eat waste and get sick or die.

It pollutes our water, soil and air.

It makes our communities dirty and unsafe.

LET'S BE SMART!

Use the bin.

Reduce, Reuse, Recycle.

Keep our school and community clean.

Tell others to stop dumping waste carelessly.

Together, we can keep Ghana clean, healthy and green! 🇬🇭
